Recommended NUTRIPLANT® SL Application Rates for Selected Crops

Applications: SHAKE WELL before using.

For seed application apply **NUTRIPLANT® SL** to the seeds before planting. Spray product as a fine mist to obtain thorough coating of seeds. Dilute with water if necessary to obtain uniform coating. Dilution may vary depending on spray equipment. Use as little water as possible. Mix seeds until they are dry and do not stick together. Keep seeds dry until planting. Plant seeds as usual.

For in-furrow application apply **NUTRIPLANT® SL** during planting. Dilute recommended rate of the product with enough water to obtain uniform distribution. Use 4-15 gallons of spray solution per acre depending on the spraying equipment. Spray mixture uniformly over seeds planted in furrow.

Recommended Application Rates to the Seed

For in-furrow application rate (fl oz/acre) for a crop double the number of fl oz listed for that crop

Alfalfa	2 fl oz per 100 lb of seed
Barley, oats, rice, rye, wheat	2 fl oz per 100 lb of seed
Beans, chickpeas, lentils, peas	2 fl oz per 100 lb of seed
Carrots	5 fl oz per 100 lb of seed
Corn	4 fl oz per 100 lb of seed
Cotton	6 fl oz per 100 lb of seed
Milo, millets, sorghum, flax	5 fl oz per 100 lb of seed
Onions, chives, garlic, leeks, shallots	2.5 fl oz per 100 lb of seed
Peanuts	2 fl oz per 100 lb of seed
Potatoes	8 fl oz per 1 ton of seed
Rapeseed, canola	5 fl oz per 100 lb of seed
Safflower, sesame, sunflowers	2 fl oz per 100 lb of seed
Soybeans	2 fl oz per 100 lb of seed
Squash, melons, pumpkins	2.5 fl oz per 100 lb of seed
Sugar beets, tomatoes	4 fl oz per 100 lb of seed
Sugar cane	8 fl oz per 1 ton of seed

Important Notice: Read the entire label. Use only in accordance with the label instructions. Use in conjunction with a normal fertilizer program. **NUTRIPLANT® SL** is intended as a supplement to a regular fertilizer program and will not, by itself, provide all the nutrients normally required by plants.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.htm>

Storage: Store at temperatures between freezing and 110° (43°C). Keep container tightly closed. Do not store diluted product. Do not store in direct sunlight.
