

**WE DISCLOSE** the ingredients in every LEGACY OF CLEAN® product, because you have a right to know what's in the products that you bring into your home. So that your babies can crawl on the floor you just washed. So that you can make sandwiches on the counter you just wiped down. And so that you don't have to open the windows to finish cleaning the bathroom.

### Naturally Derived Ingredients

We've been making this stuff for over 50 years and we've learned a lot about how to make products that are both safe and effective. That's why many of our products contain ingredients derived from coconut oil, orange oil, and aloe vera. That's also why they work so well.

### Safe & Tested

Our products do not contain ammonia, chlorine, or other harsh chemicals – so you can breathe easily while you clean up.

We also make sure that formulas you're likely to touch are all dermatologist tested – just one more assurance that these products are safe for you and your family.

### Listed Online

Not all brands make their ingredients known, but we do. To find them, just look online at Amway.com in the U.S. and Amway.ca in Canada and click on the More tab from any LEGACY OF CLEAN product page to see that product's ingredients.

### Powerful

Many competitors' "green" cleaning products simply don't work, while products that do work often contain harmful chemicals you wouldn't want to expose your family to. We believe that cleaning products should be both highly effective and safe for you and your loved ones.
